

## TECHNICAL SKILLS

---

- **Languages:** C++, C, Python, JavaScript, SQL (basic), HTML5, CSS
- **Developer Tools:** VS Code, Git, GitHub, Postman
- **Frameworks/Technologies:** React.js, Express.js, Node.js, Next.js, Tailwind CSS, Bootstrap
- **Cloud/Databases:** MongoDB, Vercel, Render
- **Soft Skills, Coursework & Areas of Interest:** Team Collaboration, Problem Solving, Adaptability; Data Structures, Design and Analysis of Algorithms, DBMS, OOP, Computer System Programming; Full Stack Development, Competitive Programming, Problem Solving

## PROJECTS

---

- **Pixelcode** GitHub Repository
  - *React.js, Node.js, Express.js, Socket.IO, MongoDB*
    - Built a code editor with guest and authenticated modes, supporting 10+ languages and 20+ themes via Monaco Editor.
    - Added JWT-based login with email OTP verification and password reset using Nodemailer.
    - Implemented per-project virtual file systems with file and folder creation, renaming, deletion, and live editing.
    - Created collaborative coding rooms using Socket.IO with admin controls like blocking participants.
    - Enabled shareable code links with title and description, restricting link updates to the original creator.
    - Integrated Gemini 1.5 Flash to power Nebula, an AI assistant for debugging and code help.
    - Used Redux Toolkit to manage global state across files, projects, and rooms.
- **Placement Manager** GitHub Repository
  - *C++ (STL, File Handling, Data Structures), OOP*
    - Built a comprehensive placement management system with a Python preprocessor for CSV renaming and sorting and a C++ parser for structured storage of company/round/candidate records.
    - Used efficient data structures (maps, vectors, sets) and composite keys for fast, round-wise and per-student lookups.
    - Generated analytics on company and round success rates, college placement rate by year, and interview duration statistics (average, maximum, minimum).
    - Implemented search/query features to retrieve student profiles, track progress across rounds, list companies a student participated in, and sort companies by success rate.
    - Added trend (year/branch/program breakdowns) and trajectory features to analyze multi-year placement patterns and suggest target activities (LeetCode, projects, hackathons, CPI) for students.

## ACHIEVEMENTS

---

- Completed **1400+ problems** on LeetCode (**OmChavda**) and Codeforces (**Om\_007**), earned the **Specialist** title on Codeforces with a peak rating of **1451** and the **Knight** title on LeetCode with a peak rating of **1965**
- Ranked **716** globally in LeetCode Biweekly Contest 151 among **29K+ participants** and **983** globally in Codeforces Round 1027 Div.3 among **23K+ participants**
- **3rd** Prize winner in Winter of Code 7.0 at MSTC Dhirubhai Ambani University among **50+ participants**, secured rank **138** in ACPC (Admission Committee for Professional Courses), Gujarat - 2023

## EDUCATION

---

- **Dhirubhai Ambani University** Gandhinagar, Gujarat
  - *B.Tech in Information and Communication Technology, CPI: 8.80* Aug 2023 – Present
- **B.N.Virani** Bhavnagar, Gujarat
  - *Higher Secondary Education, Score: 78.62%* June 2021 – June 2023
